NEW STREET SAFE TOOL

giving people the power to report areas where they feel unsafe

POLICE.UK/STREETSAFE

The **StreetSafe** tool has been introduced as part of the Government's response to tackling violence against women and girls. It identifies public spaces where you have felt or feel unsafe, because of issues such as anti-social behaviour (for example being verbally abused or followed) and environmental issues (for example lack of street lighting, abandoned buildings or vandalism).

Anyone who has concerns about a particular location is encouraged to provide information anonymously, via the StreetSafe tool online. To access this, please use the QR code on the reverse or visit www.police.uk/streetsafe

No crime needs to have been committed for you to indicate where you feel or have felt unsafe. Reports submitted via StreetSafe provide insight that will help to inform the working priorities of police and community safety partners, making streets safer for everyone.

IMPORTANT: Please be aware that the StreetSafe tool should not be used to report crimes.
To report an incident to the police, call 101 or go online: www.avonandsomerset.police.uk/report/
In an emergency, where lives are in immediate danger or a crime is in progress, always call 999.
