Response #1180043

From [REDACTED]

Date Started: 07 Dec 2023 15:16. Last modified: 07 Dec 2023 15:28

Status Incomplete

How to complete the Questionnaire

You can answer as many questions and comment on as many sections as you like. You **do not have** to answer all the sections or questions, nor do you have to complete the questionnaire in one sitting, you can save responses and return to your responses, before finally submitting. If you need to submit additional information as part of your response, please see question 30 to upload attachments.

The closing date for comments is **16 February 2024**.

For some questions you will be redirected to an interactive map and asked to view information on those maps and comment in that location. This is because some questions relate to particular parts of the authority, or there a large number of sites available to view and comment on. Rather than list over 200 individual sites in this questionnaire, the information and opportunity to comment on sites of interest or near to you, is better accessed through our interactive maps.

The questionnaire will give you an opportunity to comment on all of these issues and is broken down into the following sections:

About You

Council Priorities and Local Plan Objectives

Planning for Economy and Jobs

Planning for Town Centres

Planning for Infrastructure

Urban Areas and Market Towns

Towards a Preferred Strategy

New Strategy Lens

Planning for Gypsies Travellers and Travelling Showpeople

Planning for Renewables

Minerals

GI Corridor

Policies (Adopted Policies & New Draft Policies)

1. Understanding who is responding

Please help us understand the type of groups and people that are responding and engaging with the preparation of our new Local Plan, by choosing which one of the following stakeholder groups you best represent.

Do you have any comments on our proposed updates to the primary shopping area and wider town centre boundaries?

(You can read about this approach [here](#))

Please make your comments through our interactive map [here](#).

5a. Planning for Infrastructure

The Infrastructure Position Statements (IPS) sets out information on what is currently planned and how planning for each type of infrastructure is currently undertaken. Moving forward we would welcome views, particularly from developers & infrastructure providers on how infrastructure could be brought forward in a more timely way during the development process.

(You can read about this approach [here](#))

«No response»

5b. Planning for Infrastructure

We have to understand development economics in order to ensure infrastructure, where needed, is affordable and deliverable. We therefore would welcome feedback, particularly from developers and land agents on the proposed issues, methodology and inputs in undertaking a full Viability Assessment, as set out in the Viability Position Statement (VPS).

(You can read about this approach [here](#))

«No response»
