

BRING YOUR OWN DEVICE POLICY

In this policy:

‘Council Members’ means all elected and co-opted members of the Parish Council
‘Devices’ means computers (desktop and laptop), tablets, smartphones and external hard drives.

‘Parish Council Business’ means any activity undertaken in the role of member of the Parish Council.

‘Personal Data’ has the meaning set out in Article 4(1) of the General Data Protection Regulation: “any information relating to an identified or identifiable natural person (‘data subject’); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person”

‘Personally owned’ means ownership of a Device by a person or legal entity which is not the Parish Council

1. Introduction and Background

Pucklechurch Parish Council recognises that council members have to use personally owned electronic devices for parish council business, whether that is at home or at meetings. Such devices include laptops, smart phones and tablets. This practice is commonly known as ‘bring your own device’ or BYOD which the parish council supports.

The use of such devices to create and process council information and data creates issues that need to be addressed, particularly in relation to data protection, information security and GDPR compliance. The parish council must ensure that it remains in control of the data for which it is responsible, regardless of the ownership of the device used to carry out the processing of personal data.

This policy is intended to protect the security and integrity of personal data controlled and processed by Pucklechurch Parish Council. Pucklechurch Parish Council Members must agree to adhere to the terms and conditions set out in this Bring Your Own Device (BYOD) policy in order to receive and process Council data on their devices.
