

Presenting
**OUR SECOND PROGRAMME
OF SPECIAL TRIPS!**

We are able to run these trips with a new vehicle thanks to the National Lottery Community Fund. Thanks to the funding we can offer passengers a very low cost fare and we also have scope for passengers that are in financial hardship. We will endeavour to get every passenger onto at least one trip, we want to make it as fair as possible. We will have two buses for each trip, so we will have buses collecting in different areas but you can meet up with friends when you arrive.

These are designed to be Days Out! Generally passengers can choose what they want to do at each destination but if you want some help booking somewhere to eat we're more than happy to help. Earlier pickups likely to make sure you have a full day out!
